To Whom It May Concern:

I am pleased to provide a recommendation for Virginia (Ginny) Baughman. Ginny was my student for two years. I was her academic adviser and a reader for her Master's thesis. I have remained in contact with her since the completion of her Master's degree earlier this year.

Ginny's interest in art and art education are long-standing. She is a practicing artist and she shows great potential for teaching and for developing much needed innovative curricula in art for students with special needs and for typical students. She has created many opportunities for teaching art in traditional and non-traditional settings including the Columbus College for Art and Design and in her own home. Additionally, she has been a guest lecturer in my classes on Art Education for Children With Special Needs and is well-informed in the area of gifted education in art.

Ginny is intelligent, creative, enthusiastic and thorough and would be a fine addition to a teaching team. I recommend her without hesitation and invite further inquiries on her behalf.

Sincerely,

Vesta A.H. Daniel  
Associate Professor
